SUBJECT: BLUE LANTERN LEVEL 3: POST-SHIPMENT END-USE CHECK
ON LICENSES 050059552, 050127774, AND 050188290

REF: 2006 BLUE LANTERN GUIDEBOOK

¶1. This is an Action Request. See paragraphs 2-4.

¶2. The Department's Office of Defense Trade Controls Compliance (PM/DTCC) requests Post's assistance in conducting a post-shipment check on licenses 050059552, 050127774, and 050188290 for the export of International Traffic in Arms (ITAR)-controlled aircraft refueling nozzles to Singapore. Post is requested to complete this Blue Lantern inquiry within 45 days. Lack of response to a Blue Lantern inquiry will affect pending and future licenses involving parties to this license.

¶3. Reason for request: The U.S. applicant, Carter Ground Fueling (CGF), recently submitted license 050207766 for the export of refueling nozzles to foreign consignee Haneflex (S) Pte. Ltd. of Singapore. However, said license was Returned Without Action (RWA) due to the fact that the end user is an entity located in the PRC. Prior to the submission of 050207766, the subject licenses were approved for the same commodity (refueling nozzles) and foreign consignee (Haneflex) as 050207766, except the listed end user on the licenses is the Singapore Air Force (SAF) / Defense Science & Technology Agency (DSTA). The subject license applications did not include any supporting documentation from the end user. The circumstances suggest the possibility the items may have been diverted.

¶4. ACTION: The Department requests that Post confirm that the foreign end user, SAF/DSTA has received all items listed on the license applications (see para 5). In addition, the Department requests that Post make inquiries with appropriate officials to establish the bona fides of Haneflex in the transaction. Conduct a site visit to assess the company's reliability as a recipient of United States Munitions List (USML) articles as well as an assessment of the company's on-site security and operations. If a site visit is not possible, please inform the PM/DTCC case officer.

The following points are included for guidance:

--Can Haneflex provide documentation that verifies the end-use of the refueling nozzles, such as a contract or purchase order from the SAF or DSTA

--When was Haneflex established and who are its principals?

--What is the nature of the company's businesses -- what type of items does it handle? Does the company serve as a broker?

--What type of organizations are among its typical customers and where are they located?

--Does Haneflex understand the restrictions on USML items, especially the prohibition against unauthorized re-transfer and re-export?

END ACTION.
